SPEED 'N STYLE TIRES

ACCELERA LIMITED WARRANTY
PASSENGER & LIGHT TRUCK TIRES

EFFECTIVE MAY 2016

WHAT IS WARRANTED AND WHO IS ELIGIBLE UNDER THE WARRANTY?

Pt. Elangperdana Tyre Industry (EPTI), Jl Elang Desa Sukahati, Citeureup, Bogor, Indonesia, warrants to the original purchaser that all Accelera replacement radial tires with a complete D.O.T identification number, supplied either directly or through an authorized Accelera dealer, and which are mounted on passenger cars, vans and light trucks within the North America, if become unserviceable for any reason within the manufacturer's control, will be replaced with an equivalent Accelera tire.

This warranty applies only to consumers actually purchasing and using the tires in all of North America, limited to the 48 contiguous states, the District of Columbia, the non-contiguous states of Hawaii and Alaska, and Canada.

WHAT IS COVERED BY THE WARRANTY AND FOR HOW LONG?

Under Accelera's Limited Warranty conditions, if any eligible tire becomes unserviceable due to a covered warranty condition, Accelera will do the following:

- i. During the first 2/32" of the original usable tread, or within (12) twelve months from the date of purchase (proof of purchase required) whichever comes first, Accelera will replace the tire with a comparable new Accelera tire 100% free of charge. Applicable fees and taxes and costs of mounting and balancing are payable by the owner.
- ii. After the 100% replacement term expires and the tire is still within (60) sixty months of the date of purchase (proof of purchase required), credit will be pro-rated towards the purchase of a comparable Accelera tire. The credit will be determined by the percentage of original tread depth remaining on the tire. Applicable fees and taxes and costs of mounting and balancing are payable by the owner.

The authorized Accelera dealer will determine the adjustment cost by multiplying the percentage of original usable tread worn by the current current Accelera price in effect at the time of adjustment.

Refer to the example below to obtain the credit percentage:

R.T.D = Remaining Tread Depth
O.T.D = Original Tread Depth

If R.T.D = 5/32" = 5 and O.T.D = 10/32" = 10

The calculation is:

$$\frac{\text{Remaining Usable Tread Depth (5-20)}}{\text{Original Usable Tread Depth (10-2)}} = \frac{3}{8} = 0.375$$

=38%

3. The original purchaser must be the owner of the vehicle on which the tires were originally installed
4. The tires are worn out evenly across the tread, down to the treadwear indicator (2/32") at which time they are considered to be 100% worn out. The tire must not have more than 2/32" tread depth difference

6. For vehicles equipped with staggered size fitments (different tire sizes on the front and rear axles) which cannot be rotated, the mileage warranty for the front or rear tires will be 50% of the warranted miles specified under the standard Accelera treadwear warranty

TIRE REGISTRATION

It is important that you register your Accelera tires promptly upon purchase. Registration is an important safety procedure since it enables the manufacturer to notify you in the event of a product recall. To complete registration, you will need to provide:

1. Your contact information
2. The tire D.O.T codes located on your tires
3. Your dealer's contact information (where you acquired the tires from)

Please use the form available on:

www.acceleratire.com/tire-register for quick and easy registration of your tires.

SAFETY WARNING 

Accelera makes your safety our top priority. It is essential for you to ensure proper use and maintenance of your tires to avoid any serious injury. Here are some safety tips we recommend to mitigate your risk of tire failure:

1. Owners must continue to rotate tires in accordance to their vehicle owner's manual or every 5,000 - 6,000 miles
2. Tires should be regularly inspected by a qualified tire professional for any signs of damage
3. Tires should be mounted only by trained professionals. Follow all instructions in the vehicle owner's manual or tire placard in vehicle to avoid under-inflation, overloading and misapplication
4. Use approved rims and wheels only
5. Do not spin tires on slippery surfaces such as snow, ice, or mud, or spin in excess of 35 mph (56 kph), as indicated on the speedometer
6. We recommend replacing any tires that are beyond (10) ten years from their date of manufacture. If your vehicle manufacturer has specific recommendations for tire replacement, you should follow the specific recommendations for that vehicle
7. Always avoid purchasing used tires. Previous usage may have damaged internal components that may lead to tire failure
8. We recommend replacing all four tires at the same time. However, when only two are replaced, the new tires should be on the rear since deeper tread may provide better grip and water evacuation in wet conditions
9. We recommend routine air pressure checks as per your vehicle manufacturer's specifications

Any tire, no matter how well constructed, may fail in use as a result of damage or misuse. If you experience any vibrations or ride disturbances, or notice a bulge, bump, or any kind of irregularities, we recommend having your tires evaluated by a qualified tire servicer immediately
